

① OUTER SPACE IS A FAR OUT PLACE

YOU MAY HAVE BEEN THERE BUT JUST IN CASE

①.5 YOU HAVEN'T, I'LL TELL YOU, FACE TO FACE

WITH ALL KINDS OF THINGS, INCLUDING A GWACK

(Bass only)

③ Now Tau Ceti A, where the gwacks make their home, is just one of the planets where the star roamers roam. There's also Big Cygnus, and the stars of Centuri which when looked at too often, make your vision quite blurry

④ Travelling through space is a problem for many but with a ship like I have, I just don't have any. It gets me right through, the belt of Van Allen and gives me twenty light years to the gallon
